INDUSTRY STRUCTURE AND DEVELOPMENT

The company is rendering services mainly to SME Sector. However, enquiries for new project assignments in SME sector has dropped drastically. SEBI banned category II merchant banking category, which the company was enjoying.

It becomes difficult for small merchant banking companies and consultancy outfits to survive. The global consulting firms made inroads in our country. All these factors made it difficult for the industry to grow.

The trend, however, is becoming clear and only those companies will survive which are par excellence in their core field.

FINANCE AND INVESTMENT

The area of finance and investment is likely to see upward trend. However, all investments made through bought out deals, devolvments in underwriting commitments etc. have severally affected the financial of the company.

OPPORTUNITIES

- Consulting in restructuring, amalgamation etc.
- Project consultancy
- Financial consultancy
- Liason activities
- Conflict Management Services
- Diversification plans

THREATS

- Large overhead
- Competition from global firms
- Recovery of fees
- Branding

FUTURE BUSINESS OUTLOOK

In this information age the knowledge is power. Timely and accurate information is sought by a number of companies. A large number of companies are looking for diversification plans, as their existing activities are no more profitable. The company plans to make such services available to its constituents in time to come.

INTERNAL CONTROL SYSTEMS

The level of activities of the company at present is quite low. Keeping in view the scale of operation, size of the company, and cost aspect, the company has reasonably good internal control system to ensure that all its assets are safeguarded and protected against loss from unauthorized use or disposition and transaction are authorized, recorded and reported correctly.

The internal control systems are also designed to ensure that the financial and other records are reliable, for preparing financial statements and other data. The audit committee, which has been formed during the year, will also play an important role in times to come.

RISKS AND CONCERNS

The business of the company largely depends on the improvement of investment climate, growth of medium scale sector and pooling of resources by the company. The company will endeavor its best to capitalize on its strengths and improve upon its weak areas.

HUMAN RESOURCES DEVELOPMENT

Rather than recruiting permanent employees, the company will prefer to out source various services based on assignments in hands. This will minimize the risk and keep the overheads at reasonable level.
